The responsible motorhomer is a traveller who seeks to discover new places and different cultures, interacting with the local community and contributing to sustainable development.

- **Respects local values and traditions** and seeks to know about culture, language, heritage and regional cuisine.
- **Seeks to minimize its “ecological footprint”** by saving water resources.
- **Overnights in licensed parks**, enjoying a quality service and a quiet and safe environment.
- **Preferably uses renewable energy sources.**
- **Contributes to the preservation of biodiversity and environmental sustainability.**
- **Uses environmentally friendly transport** when travelling.
- **Practices physical exercise and promotes a balanced diet.**
- **Respects social and cultural diversity** and contributes to a healthy environment between motorhomers and the local population.
- **Contributes to the economic development of the region** by acquiring local goods and services.
- **Takes care of animals**, ensuring the cleanliness, safety and tranquillity of the spaces.
